2018 COLLECTION

No Ordinary Company

Wholly New Zealand owned and operated, Aquatica has become synonymous with service, reliability and innovation.

From the beginning Malcolm and Christina Box wanted to create a company that reflects their values and they have done just that. At Aquatica everyone from the clients to the staff are treated the way Mal and Chrissy would like to be treated and this is the key to their success.

The focus is on providing products that are beautiful to look at and a pleasure to use and this ranges from the tapware to the newly introduced bathroom range showcased here.

The consistent quality, genuine warranties and what can only be described as fantastic service, have led to repeated calls from clients for Aquatica to provide a full range of bathroomware.

Mal and Chrissy listened and after well over a year of looking at designs, and sourcing partners who fit the Aquatica ethos, they took the plunge and bought the 4500 sq meter property next to the existing purpose built plant in Avondale. This will facilitate the expansion that will see an already trusted New Zealand brand become even bigger and better.

DECINA

DISCOVER INDULGENCE

DC MASIVO 1800

Indulge your senses with the ultimate in quality and design from Decina Bathroomware.

Decina and Aquatica Partnership

Partnership

Ongoing enquiries and a demand for additional bathroom products has led Aquatica to partner with Decina, Australia's leading bathroomware manufacturer that was established over 27 years ago.

The partnership is founded on both companies sharing similar core values of integrity, enhancing our colleagues and customers lives and delivering quality and value in everything we do.

Why Buy Decina?

Decina has made over one million baths in their Queensland factory since 1989 and is 100% Australian owned.

Decina is Australia's first choice in bathroom products when it comes to quality and value.

All of Decina's products comply with stringent Australian Standards giving you peace of mind.

Decina uses premium sanitary grade acrylic for superior gloss, scratch and chemical resistance, guaranteed colourfastness with easy to clean surfaces.

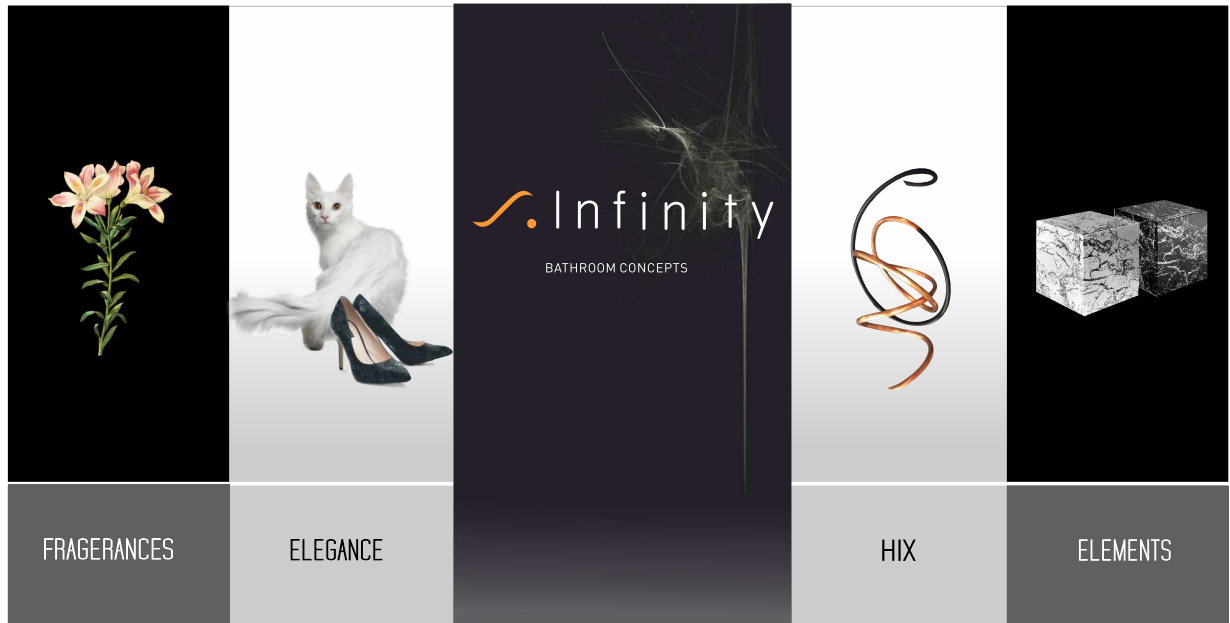

All of Decina's bath rims contain steel rods for extra strength while the bath bases are double reinforced with timber and fibreglass for sturdiness and durability providing greater safety when entering and exiting the bath.

Australia's leading retailers recommend and award Decina for exceptional after sales service, product quality & value.

DC ELINEA 1780

Infinity and Aquatica Partnership

Partnership

In our search for new European lines to compliment our portfolio and reflect our ethos towards good design and exceptional quality, we discovered Infinity.

This exciting young Spanish company combines a raw passion for creativity with functionality and manufacturing excellence. Infinity uses both traditional materials and an intriguing palette of natural textures and cool greys, whites and seductive blacks.

The baths have integrated panels that are textured which compliment the detail in the matching toilets.

Why Buy Infinity?

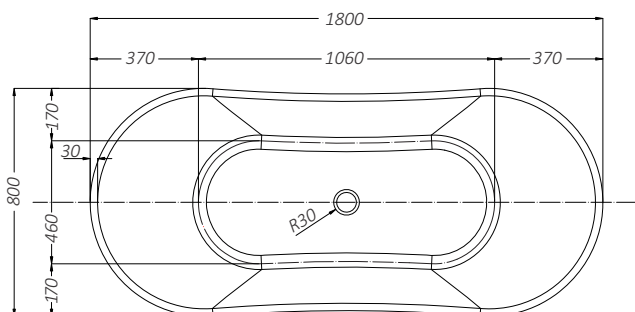

A bathroom is a very personal space where you start and end your day and Infinity offers exciting options to turn the ordinary into a stimulation of the senses. The Infinity ranges create the opportunity for bathroom decor with tactile and aromatic experiences. Infinity tap ranges that match the marble, wood, matt black and carbon fibre finishes in the baths and toilets are also available in wood trim tapware that emits fragrances. See our Infinity tapware brochure.

Baths- Free Standing

Hilton

This stylish freestanding bath in cool white has gentle curves creating high sloping backs and an elegant, thin lip. Spacious enough for two bathers.

Key Features

- Freestanding design creating a striking focal point
- Premium sanitary grade acrylic
- Made to Australian Standards
- Dual high reclining back rests
- Easy to clean and maintain
- Centre waste position
- High gloss white
- 10 year warranty
- Plug & waste not included

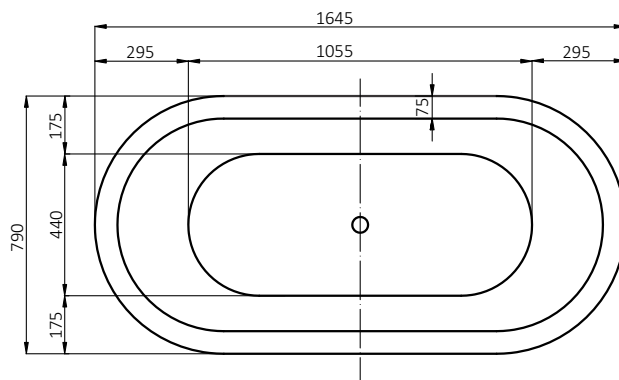

DC HILTON 1800

Size (mm) (l) x (w) x (h)
1800 x 800 x 660 – 126 litres

Sophisticated and elegant, this classic oval shaped freestanding bath in bold black contrasting with stark white is guaranteed to make a statement in your bathroom. Matching tapware is available in black or sleek chrome.

Key Features

- Freestanding design creating a striking focal point
- Premium sanitary grade acrylic
- Made to Australian Standards
- High gloss black and white
- Easy to clean and maintain
- Centre waste position
- Plug & waste not included
- 10 year warranty

Size (mm) (l) x (w) x (h)

1645 x 790 x 580 - 144 litres DC KOLORA 1645 BLACK

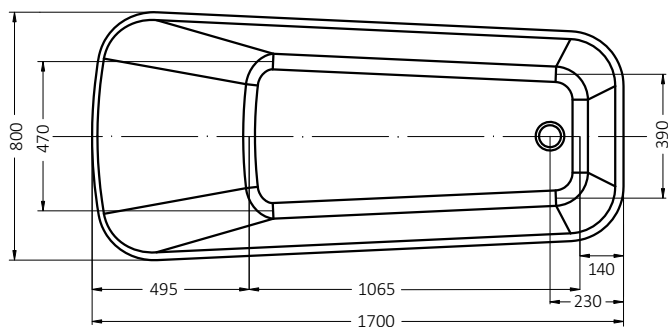

Sienna

The tapered design and high back creates style and comfort and will be the centre of attention in any bathroom. The crisp contemporary lines create a strong presence in a modern bathroom space and the high back rest offers essential head support for a relaxing soak.

Size (mm) (l) x (w) x (h)
1700 x 800 x 660 – 165 litres

DC SIENNA 1700

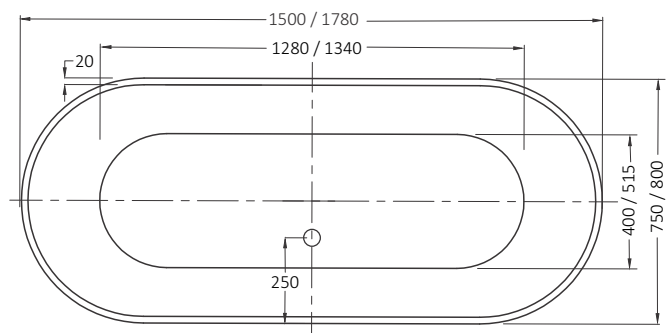

This classic oval shape with minimalist clean lines and an ultra thin lip around the bath is timeless in design. It features generous reclining lumbar areas at both ends to comfortably accommodate two bathers. Headrests are available.

Size (mm) (l) x (w) x (h)
 1500 x 750 x 580 – 235 litres DC ELINEA 1500
 1780 x 800 x 570 – 312 litres DC ELINEA 1780

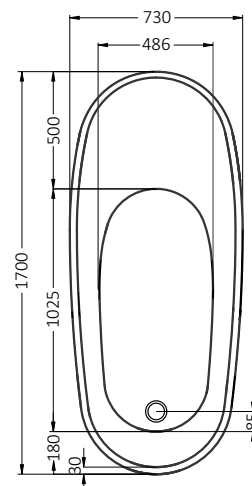

Key Features

- Oval freestanding bath design
- Premium sanitary grade acrylic
- Made to AS/NZ standard: 2023/1995
- High gloss white
- Off-centre waste position
- Ultra thin bath rim ~ 20mm
- Plug & waste not included
- 10 year warranty

Merrica

A modern take on a claw foot bath, the Merrica's softly contoured sides blend seamlessly into the floor to create a sense of fluidity transforming the bathroom into an elegant space. The extended backrest provides back and head support, essential for those long, luxurious soaks.

DC MERRICA 1700
Size (mm) (l) x (w) x (h)
1700 x 730 x 835 – 156 litres

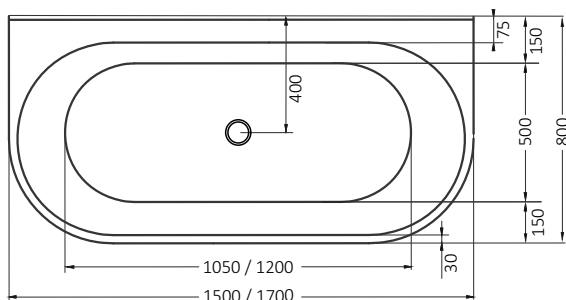

Alegra

The Alegra freestanding back-to-wall bath with beautiful curved edges, features a tile bead so it can be built into the wall or sit against the wall.

Key Features

- Freestanding design
- Tile bead so it can be checked into a tiled wall
- Premium sanitary grade acrylic
- Made to Australian Standards
- Plug and waste not included
- High gloss white
- 10 year warranty

Size (mm) (l) x (w) x (h)

1700 x 800 x 600 – 175 litres DC ALEGRA 1700

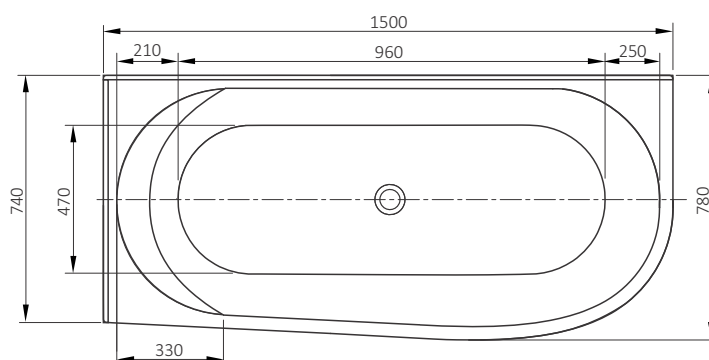

Natalia Left

With clean lines, sophistication and the simplicity of a freestanding bath, the Natalia makes the most of the available space with a corner installation. It features reclining lumbar support at both ends. It also has a bead for easy installation against walls.

Key Features

- Freestanding design
- Tile bead so it can be checked into a tiled wall
- Premium sanitary grade acrylic
- Made to Australian Standards
- Plug and waste not included
- High gloss white
- 10 year warranty

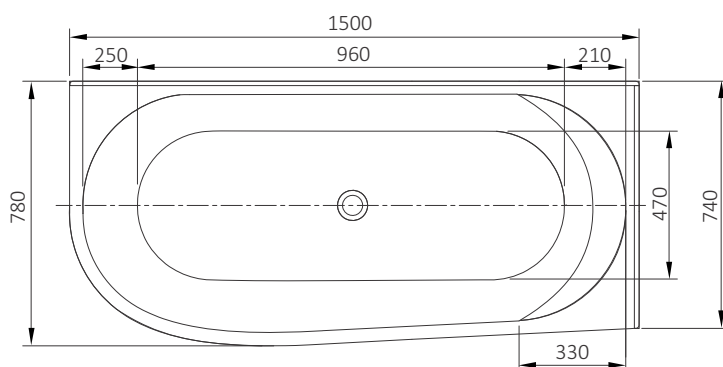

DC NATALIA L 1500

Natalia Right

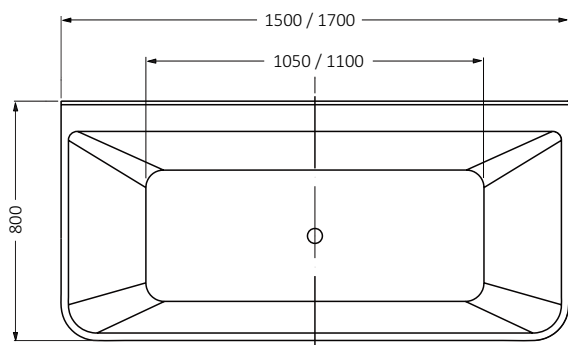

Size (mm) (l) x (w) x (h)
1500 x 780 x 550 – 150 litres DC NATALIA R 1500

Key Features

- Freestanding design
- Tile bead so it can be checked into a tiled wall
- Premium sanitary grade acrylic
- Made to Australian Standards
- Plug and waste not included
- High gloss white
- 10 year warranty

Aria

The Aria back-to-wall rectangular freestanding bath in a clean natural white finish features gentle reclining back rests and offers the practicalities of a tile bead, so it can be integrated into a tiled wall if space is at a premium.

Key Features

- Can be fitted into the wall or sit against the wall
- Premium sanitary grade acrylic
- Made to AS/NZ Standards
- Tile bead (H10 x W8 (mm))
- High gloss white
- Plug and waste not included
- Ten year warranty

Size (mm) (l) x (w) x (h)
 1500 x 800 x 610 – 182 litres DC ARIA 1500
 1700 x 800 x 580 – 201 litres DC ARIA 1700

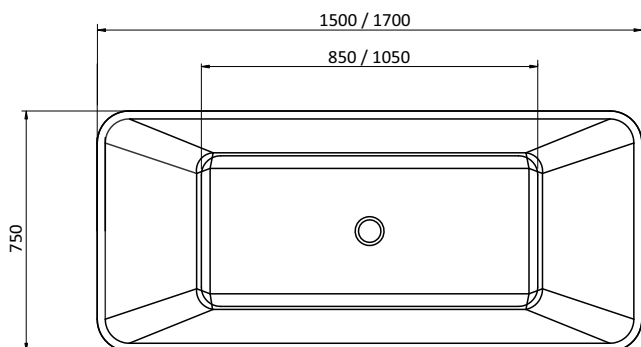

Squadro

Similar to the Aria, the soft square freestanding bath adds luxury and deserves to be the focal point in a contemporary bathroom.

Key Features

- Freestanding bath
- Premium sanitary grade acrylic
- Made to AS/NZ Standards
- High gloss white
- Plug and waste not included
- Ten year warranty

Pachina

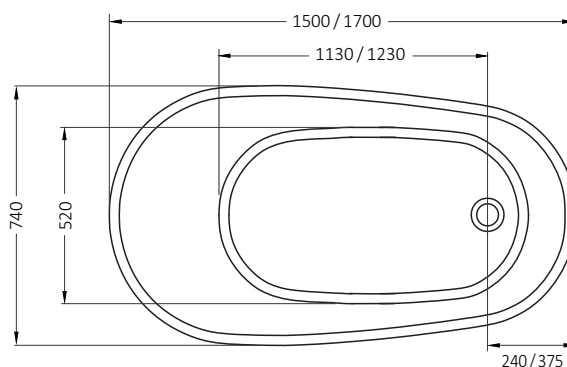

With its high reclining end and ultra-thin edges, this striking design will be the focal point in smaller bathrooms. Deceptively spacious the Pachina is sure to create a lavish, comfortable bathing experience.

Shower Collection

Decina's semi-frameless and frameless shower screens and doors create spacious enclosures that combine functionality with inspiration. The showers can be installed in tiled and non-tiled shower floors and wall applications. Decina's leak resistant acrylic shower base and one piece, seamless acrylic wall are ideal for simple and cost effective home renovations and reduce mould growth, preventing the costly maintenance associated with a tiled shower area.

Decina's shower bases are made from high gloss, premium sanitary grade acrylic and are reinforced with a steel rod and capped with ABS plastic, making them incredibly stable, functional and long-lasting.

Decina presents a number of different shower screen installation solutions to suit your every need.

Possible Screen Configurations

Tiled floor and tiled wall

Tiled wall and acrylic base

Acrylic wall and acrylic base

Shower panel only, on tiles

M Series

Frameless

The ultimate in bathroom luxury and design, the M Series Shower Panel will transform your bathroom into a sophisticated space in harmony with the surround. The M Series presents two great designs – freestanding; supported by two chrome braces so it can be placed anywhere in the bathroom or the wall-fixed panel which sits up against a wall and is available in three different sizes.

Freestanding Panel

Key Features

- EZI Clean coating
- Easy to install
- Concealed fixtures
- Corrosion resistant fittings and fixtures
- 10mm toughened glass
- Designed to fit straight onto a tiled floor or Luna shower base
- Available in chrome

* 1200 x 900mm options due December 2018

Screens are adjustable at the wall to a further + 20mm from sizes above

*The complete system includes screens, base and acrylic wall liner

Floriano

At two metres high, with a one metre diameter (or 900mm), the Floriano curved sliding shower screen offers generous internal shower space while maximising the functional areas of your bathroom. This is achieved with the 6mm toughened glass single sliding door. The clever curved design can be installed for left or right hand entry and creates more room for the basin, toilet and/or storage facilities, without any obstruction. Even the smallest bathrooms can become a beautiful, functional space.

Key Features

Reversible sliding door can be installed for left or right hand entry

6mm toughened safety glass

Designed to fit the Decina Lunar curved shower base or tiled floor

Steel chrome fittings

Open door- one handed

Malanda

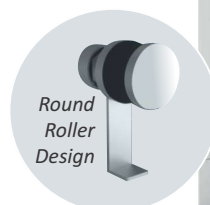

Due December 2018

The Malanda sliding door shower enclosure uses premium 8mm thick toughened glass. The reversible sliding door features a soft magnetic door close system which provides a silent and ultra-smooth running door action.

Minimalist styling, with round roller design is perfectly suited to match round bathroom accessories and a stainless steel interior/exterior door handle and bright aluminum silver frame come together to create a truly luxurious design.

Key Features

- Visible round roller shape design
- 8mm toughened safety glass
- Stainless steel interior/exterior handle
- Stainless steel roller
- Reversible rolling doors can be installed for left or right hand entry
- Designed to fit a Decina Lunar shower base or straight onto a tiled floor
- Door rollers and brackets vigorously tested for strength and durability
- Easy to clean with exclusive EZI Clean coating

Specifications and Ordering Codes

Screens are adjustable at the wall to a further +24mm from sizes below

Milford

The Milford shower screen range features a fully framed, 6mm toughened glass shower screen and return panel. The pivot door features an exterior, chrome door handle and is an impressive two metres high. For versatility the Milford Screens comes in two sizes and can be combined with an acrylic shower base or as a complete shower system with an acrylic Lunar shower base and walls, providing an exceptionally low maintenance, attractive shower area.

The Milford is also available as a door only, designed to fit alcove shower recesses (900 x 900mm).

Spa Baths

Pump Positions

In order for us to build your own spa bath we ask that you to nominate your choice of pump position (see below). The pump has to be accessible for maintenance and can be located in a number of areas.

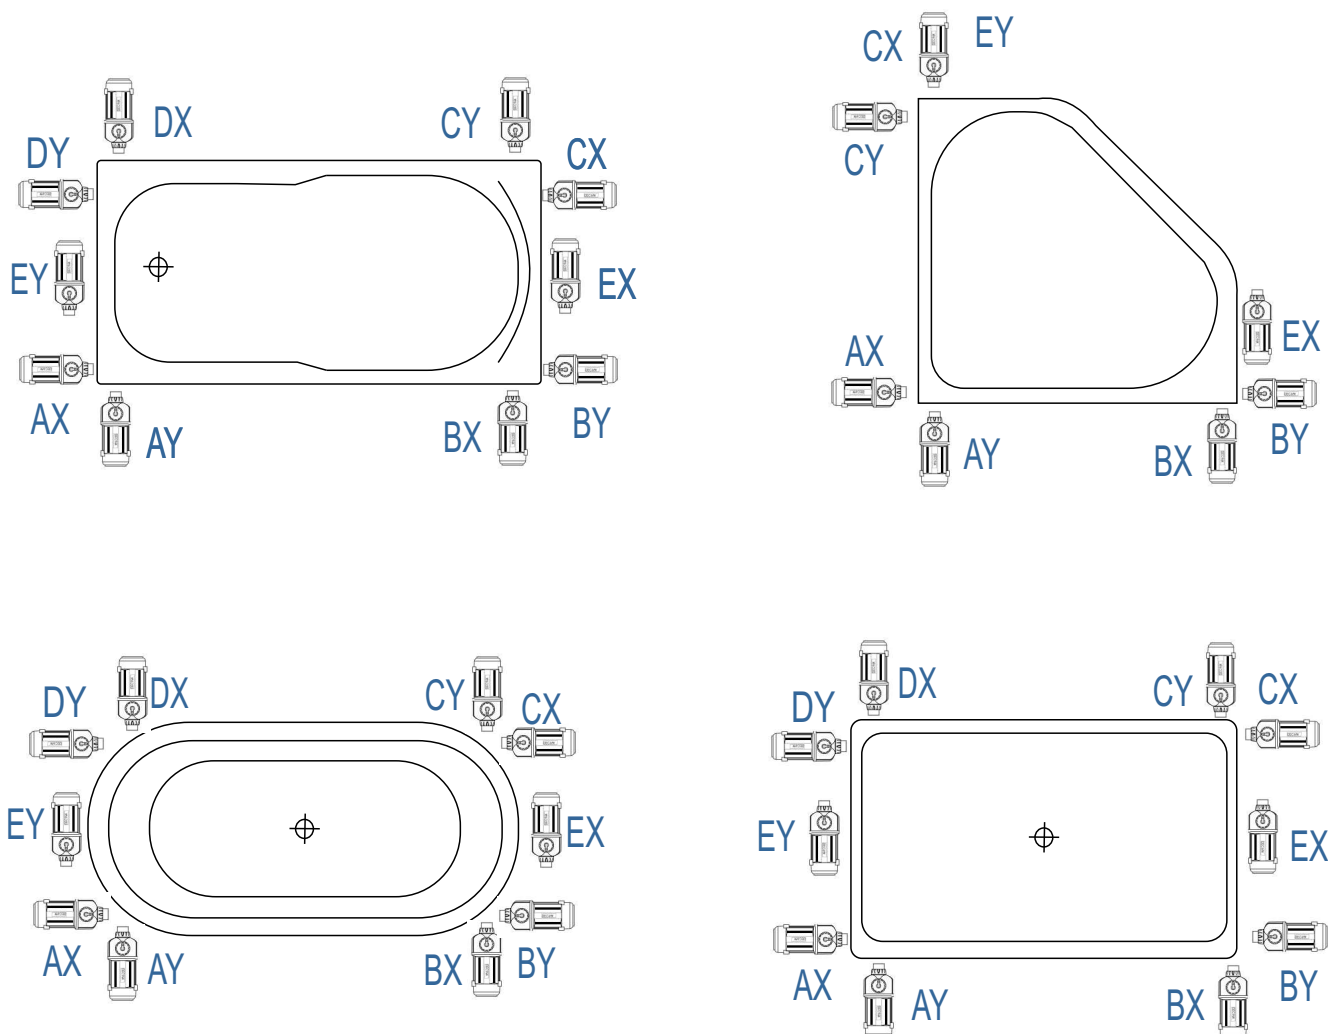

1. Either under the bath rim (with access through the wall from the outside or adjoining room)
2. Taken through and fixed to an external wall housed in an adjoining room or cupboard or within the tiled hob of the bath enclosure.

For optimum performance the pump should be no more than 1.2m from the spa with no direction changes. The external pump positions of AX, AY, BX, BY, CX, CY, DX, DY are outside the perimeter of the bath. Therefore the pipework finishes flush with the edge of the bath and we supply 300mm of pipework, loose couplings and the barrel unions so the final connection can be completed on site.

Should you wish to locate the pump more than this distance away from the spa, please nominate the length of extension pipework required (max 1.2m recommended). It is important that the height of the pump should be at the same level as our finished pipework.

All spa pumps are factory water tested and supplied with the relevant pipework including the barrel union connections. The height of the pump is established in the factory to ensure the system will prime and self waste.

Spa Pump Positions

EZI Frame

Benefits of the EZI Frame Bath Support

In line with their tradition of innovating in the bath and spa bath market, Decina is proud to offer the exclusive 'EZI Frame' bath support frame. The EZI Frame is a structural on site fitting for specific baths and spa baths that eliminates the need for further support. The steel support frame contains adjustable legs that can be fitted under the bath on site.

The benefits of using the EZI Frame is that it eliminates the use of on-site scrap, timber, bricks or foam under the bath which will void the Decina warranty and not structurally support the bath when filled with water and bathers.

Decina recommends only two support methods; the use of a full mortar bed or an EZI Frame steel support frame.

The EZI Frame can be pre-fitted or post fitted and is glued to the bottom of the bath with construction adhesive.

Once fitted the legs are simply screwed down to touch the sub floor.

Full installation instructions are provided with all EZI Frames.

Features:

- EZI Frame (01) for rectangle end waste 1500mm bath
- EZI Frame (02) for rectangle end waste 16/17/1800mm baths
- EZI Frame (03) for centre waste baths
- Low cost and easy to install
- Time saving for onsite installation
- Structural support and protected by warranty
- Adjustable from 55mm to 170mm with lock nuts provided
- Available from your builder or retailer

Spa Baths

Components

Components		Description	Contour
C-Lenda™ Flush Mini Jet		Specifically positioned to provide a concentrated massage to the body and feet areas.	✓
C-Lenda™ Flush Centro Jet		Designed to circulate air and water flow from the sidewalls of the spa. Adjusting the eyeball of the jet up, down or sideways can alters the direction of the water.	✓
C-Lenda™ Flush Suction		Draws water from the spa bath back to the pump for recirculation. Designed with total safety in mind, this suction has a unique built-in feature that disengages the water pressure within seconds of being activated.	✓
C-Lenda™ Flush Air Control		Regulates airflow to the jet system.	✓
Contour Sensa Touch Pad		Provides on/off function and three-stage heat control element.	✓
Contour Sensa-Touch Pad Heat Boost Pump		The three-stage heat control touch pad located on the rim of the spa bath provides the ideal temperature control via the more powerful 750 watt Heat Boost pump. Note: The element is not designed to heat cold water.	✓
Overflow		The Overflow outlet is positioned near the top inside edge of the bath or spa bath and designed to take any excess water back to the waste. Note: To elevate the bath an optional EZI Frame or base support frame (standard on Dolce Vita Spa Baths) must be used (not suitable for shower over bath installation).	Optional
Headrest Fiore		Elegant straight soft pillow headrest (for baths with straight back rests)	✓
Headrest Sienna		Elegant curved soft pillow headrest (for baths with curved back rests)	✓

Made to Order

Your exclusive Decina spa bath is a “made to order” item. Please allow 10 working days for completion and dispatch. When ordering your spa bath from either your builder or retailer you’ll need to specify the model and size of spa, the pump location, your choice of fittings and any other options you wish to purchase.

It is advisable to double check with your builder or retailer that your order form has been completed correctly to avoid any delays.
