Orders received by 12 noon will be dispatched as usual. Orders received after that time will not be dispatched until Monday 8 April

Friday 5 April

Stocktake

Monday 8 April

Normal service will resume

WELS

Aquatica has been supplying tapware with WELS labels in place since April 2011 in preparation for the scheme becoming mandatory on 1 April 2013. WELS ratings will help the consumer to make buying decisions on new products, based on their water saving features. The more stars the more water is saved.

WELS applies to six product classes

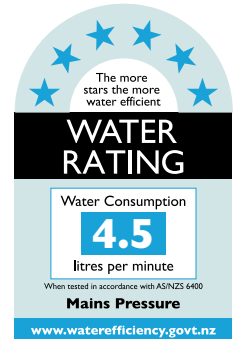

- clothes washing machines
- dishwashers
- lavatories
- showers
- taps
- Urinals

Star rating

The WELS label displays two key pieces of information:

- a star rating indicating relative water efficiency
- a water consumption or water flow figure.

Aquatica is behind the concept of water saving and we use German-made pressure compensating aerators and restrictors in our tapware.

Martin Jennison

National Sales & Marketing Manager

Martin has recently joined Aquatica from Masterspec Specification Systems having been involved in the construction industry for over 35 years.

Martin brings a wealth of experience to the company having previously worked in the plumbing industry as Commercial Projects Manager for Plumbing World. He was employed at Masterspec for the past 6 years.

Looking to further build on Aquatica's growth, Martin will be calling on his knowledge of plumbing and the specification market to further the company's presence in the commercial projects and specification arenas.

We're on the Web!

Sarah Walker

The staff at Aquatica were pleased to welcome Sarah Walker, BMX World Champion, when she dropped in to our offices at Avondale. She presented us with a signed photo of her at the 2012 Olympics with Silver Medal in hand.

Sarah, and her fiancée world-class rower Ian Seymour, chose Aquatica tapware when they built their new home in Cambridge in 2011.

Lucky rep, Andrew Fordyce, was on hand to accept the photo which now hangs in a prime position in Aquatica's Reception area.

Meet the Staff @ Aquatica

Peter Stephenson - Supervisor Sinks & Laundry Tubs

Peter started with Aquatica in September 2012 coming from Fastway Couriers where he was Loading Supervisor.

Peter is now in charge of a staff of 8 who assemble laundry tubs and organise sink dispatch.

Away from Aquatica, Peter is married with 7 children. He and his wife, Lauren, also have a German Shepherd puppy called Juke who, we imagine, keeps Peter on his toes. In fact, he says being at work is sometimes more relaxing than being at home (Yea right!!!)
